VR & Live Arts Streaming Brain Health – A4D social prescribing webinar
Tuesday 8 November 2022, 12 – 2 pm GMT

You are warmly invited to hear a compelling range of VR and live arts streaming programmes for care homes and isolated people living at home with symptoms of dementia

Professor Sir Muir Gray, internationally renowned authority on healthcare systems, Director of the University of Oxford's Optimal Ageing Programme, chairs a debate between leaders in VR technology, digital media access, artists and organisations involved in streaming arts

Jane Frere, *D-IGNOSIS! Arts to Preserve Wellbeing*, 2019, pastel.
A.R.T.S. for Brain Health: Social Prescribing transforming the diagnostic narrative for dementia From Despair to Desire (A4D)
